Re: Sole Source Certificate for ZL6 Basic Data Logger

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole designer and manufacturer of the ZL6 Basic data logger.

The ZL6 Basic measures up to six METER digital, analog, or pulse sensors and stores up to 30,000 readings in non-volatile flash memory. The logger is powered by six AA Alkaline batteries. The ZL6 Basic has an IP55 enclosure rating that is impact- and UV-resistant. The logger offers simple setup and data downloads via Bluetooth with ZENTRA Utility app or over a USB connection to a laptop (no programming required).

The ZL6 Basic data logger is manufactured at METER Group's facility in Pullman, Washington and sold directly to the end-user (as well as international distributors). The product has a one-year warranty that covers all necessary maintenance or repairs against manufacturing defects.

Any comments or questions regarding this document can be brought to my attention.

Sincerely,

Todd Martin
Principal Engineer
