Re: Sole Source Certificate for ZSC

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole manufacturer of the ZSC Bluetooth Sensor Interface.

The ZSC Bluetooth Sensor Interface is designed to make instantaneous measurements with METER digital, analog, and pulse sensors. This allows the user to view real-time readings wirelessly via Bluetooth and the ZENTRA Utility mobile app on a smartphone while installing or troubleshooting sensors. The ZSC can be used to assign SDI-12 addresses to digital sensors for easier SDI-12 programming. The ZSC also facilitates digital sensor firmware updates.

The ZSC Bluetooth Sensor Interface is manufactured at METER Group's facility in Pullman, Washington, and sold directly to the end-user (as well as international distributors). The product has a one-year warranty that covers all necessary maintenance or repairs against manufacturing defects.

Sincerely,

Todd Martin
Principal Engineer
